Dear Sir/Madam,

RE: LETTER OF APPRECIATION.

On behalf of S-4 class I hereby thank you in Jesus' name for the good work you did for us. I appreciate for the lighters that you brought for us because we are using these lighters as required and they are helping us as we students on the issue of revising our books because sometimes light can go off during morning prep but we can make best use of the lighters and they have helped us so much and so we are sure that we are going to pass very well. And I appreciate for the bibles that you brought for us because every devotion that we had some of the students were not having what to read and when it came to evening glory these students were having nothing to share but now every student is having a bible and so during devotion he or she is able to read the bible. I appreciate for the books that you brought for us because there I know that we are going to read very hard such that we achieve our set goals because we know what brought us here and what we want so I am sure that we are going to achieve it. And I appreciate you for the laptops that you brought and so the Computer students and teachers are making the best use of them and we thank you so much for that work done and I know that we shall pass very well. And I would like even to appreciate for the Projector that you brought for us which is helping both students and teachers because Computer Student are now finding the subject to be easier and teachers are using it for typing tests which are given almost every week and I know we are going to pass well and I remain saying that we are really happy as students and teachers too. May God bless you abundantly.

Yours faithfully,
