

To
THE RIVER VALLEY
COMMUNITY.

REF: APPRECIATION TOWARDS THE GIFTS AND PRESENTS THAT
WE RECEIVED:

Dear Sir/Madam: On behalf of the "A" level students of son shine christian high school, allow me to extend my sincere appreciation towards the tiresome work that river valley community has played in us as students. It is quite difficult to express how grateful we are towards the love that you have extended unto us this time, In fact we may have no hand to back it up but the spirit of love that you have for us has ignited a great relation that Christ himself knows where the depth and height lies.

I take the courage to appreciate river valley for the gifts and the presence that was delivered to us this time because I believe that through the books, laptops, projector that were offered unto us our academic performance has got to change positively than never before and with the Bibles our Christian faith and belief too will change.

However, academically I would love to appreciate the hearts that love to see us prosper through providing the lighters that we are now using to extend our revision times extremely and extensively and in relation to academics I completely believe that the entire image of students from sonshine christian school will completely change through the educative materials provided for example laptops, lighters, books, Bibles, projector and others not forgetting the advice that our visitors gave us for the time we were with them and they were with us.

The best of all I can say is thank you and may the almighty God bless you abundantly for the daily sacrifices that you make to help others lives.

Thanks

Yours faithfully
